SUMMARY

I spend most of my time solving interesting environmental problems and I have a strong passion for creating real life solutions through lines of code. I am interested in working on new and innovative projects that make a difference in people's lives and the planet and are thus looking for new opportunities to grow as a software developer.

WORK EXPERIENCE

Webflow Developer at Climate Operation

February 2022 - Present

Climate Operation is on a mission to make climate education more relatable and accessible.

- Designed the company website and blog using Figma that resulted in 200% increased engagement and 1000 new subscribers.
- Developed different pages in the company website and blog with Webflow designer that improved the company's overall aesthetic and professional look.
